

5/27/2025

To my valued patients and families,

I hope this message finds you well. I'm writing to let you know that I will be leaving Neurology Consultants of Dallas (NCD) effective June 30, 2025.

It has been an incredible honor to care for you and your loved ones during my time at NCD. Thank you for allowing me to be a part of your child's health journey. Starting July 1, 2025, I will be opening my own independent, direct-pay neurology clinic — **Orchard Park Child Neurology**.

Although I will no longer be employed by NCD, I will remain professionally affiliated with the team and look forward to continued collaboration through research and the Neuro Testing Center. I will continue seeing patients at NCD through the end of June, including those follow up appointments that have already been scheduled up to that time. I will also do my best to fit in other urgent patient visits as needed.

If you would like to continue care with me after July 1, you can contact **Orchard Park Child Neurology** at [scheduling@orchardneuro.com](mailto:scheduling@orchardneuro.com) or by phone at **214-544-6474**. You should expect a call back in early July when we start scheduling patients.

If you prefer to remain within the Neurology Consultants of Dallas network, our team would be happy to assist in transferring your care to one of our adult neurologists. NCD specializes in adult neurology and accepts patients 17 years of age and older.

For pediatric patients who do not wish to transition to my new practice, I would recommend reaching out to other pediatric neurology specialists in the area such as Texas Child Neurology in Plano, Children's Health, or Cook Children's Medical Center

For assistance with medical records, you may visit our website and click the "Medical Records" link at the top of the page or visit: <https://ereg.trimsnet.net/patient/home/ncd>. Any prior records that NCD received will be included in the requested records. There is a fee 25.00 for a complete set of medical records.

I remain incredibly grateful for the trust you have placed in me and look forward to continuing to serve the pediatric neurology community in this new chapter.

Warmly,

Daniel Gossett, MD

Pediatric Neurologist

Neurology Consultants of Dallas
